Managing Hearing Loss in Children

October 19, 2012

Hotel Terra

Teton Village, Wyoming

www.wix.com/kdon35/pediatricaudiologyproject

CONFERENCE PRESENTERS:

Berte Hirschfield, MSE

Berte Hirschfield is retired from a career in new product development and market research. She is founder and serves on the boards of Keep Yellowstone Nuclear Free and Jackson Hole Child Care Helpers and has served on the boards of local and state organizations including Bennington College, Teton Literacy Center, Grand Teton Music Festival and the Governor appointed board of the Wyoming Arts Council. She is the founder of the Pediatric Audiology Project and the grandmother of two children with hearing loss.

Jane R. Madell, PhD, CCC A/SLP, LSLs Cert AVT Director, Pediatric Audiology Consulting

Dr. Madell is an audiologist, speech-language pathologist, and LSLs auditory verbal therapist. Her clinical and research interests include hearing in infants and children, management of severe/profound hearing loss, including HA's, CI's, FM's, and auditory processing disorders. She has published four books, numerous book chapters, and articles. She presents nationally and internationally on topics related to hearing loss in children.

Amy McConkey Robbins, MS, CCC-SLP

Amy McConkey Robbins is a speech-language pathologist in private practice in Indianapolis. Her work focuses on serving children with hearing loss and their families, and promoting vocational renewal for those in serving professions. She presents nationally and internationally and has authored more than 80 publications. With Chris Barton, she has published "Tune Ups" an integrated music and spoken language curriculum, which was awarded "Most Valuable Product" by readers of *Therapy Times* magazine.

David C. Kelsall, MD

David Kelsall, MD, is a Stanford-educated Colorado native who received his medical training at the University of Colorado Sciences Center. He is a practicing otologist at Rocky Mountain Ear Center, medical director of the Colorado Neurological Institute (CNI) Center for Hearing and World Hearing Network, and the founder of the CNI Cochlear Kids Camps and the Colorado Oral Deaf Preschool. He is active in cochlear implant research and has published numerous peer-reviewed articles.

Learning Outcomes

Attendees will be able to:

- Describe three activities that integrate listening into academic material
 - Delineate a hierarchy for making auditory learning activities harder or easier for students
 - List three published resources that serve as appropriate materials for *Thinking While Listening* activities
 - Demonstrate three *Boss-Your-Brain* strategies that enhance learning
 - Enumerate three take-home activities that allow parents to reinforce *Boss-Your-Brain* strategies when interacting with their child
 - Provide counseling strategies to support children with hearing loss at home and at school
- ASHA, AAA, and LSLS CEUs offered; Certificate of Attendance for Teachers. 4.50 STARS hours are available for attending this course.

The Children's Hearing Institute is approved by the American Academy of Audiology to offer Academy CEUs for this activity. The program is worth a maximum of .55 CEUs. Academy approval of this continuing education activity does not imply endorsement of course content, specific products, or clinical procedures. Any views that are presented are those of the presenter/CE Provider and not necessarily of the American Academy of Audiology.

APPROVED PROVIDER

The Children's Hearing Institute is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, individual level and content area. ASHA, CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for a total of .55 CEUs (Intermediate Level, Professional Level)
